5

Attach the frame to the headboard using the long slots located on the lower portion of the legs of the headboard (hardware not included), these are designed to accommodate varying height bed frames. The holes with inserts are used with the bed frame that We produce for the headboard only.

#### Hardware/Assembly Tips:

With the headboard in position to be mounted to the frame, measure the length from the back of the headboard to the inside of the bedframe, allow enough additional length to add a couple of washers and a nut to secure the headboard to the frame.
